

## **Update on Church Services:-**

As of Monday 19<sup>th</sup> July, the physical distancing requirement in church is reduced from 2m to 1m. Congregational singing is allowed, however, face coverings during the service, including when singing, are still required to be worn. Hand gel must be used on entry and exit. We plan to have a small choir as often as possible and they are allowed to sing without masks. This means we can now use 21 pews instead of 13, which gives us the opportunity for more people in church, while remaining in family / social bubbles. Please continue to book through Marie. For the moment we will continue to have the same service on Wednesday and the following Sunday, with recordings available on YouTube. I hope this encourages those who have not yet returned to church to come and worship, through word, sacrament and music. Every blessing, Nicki.
